SKILLS

Core

Node.js / TypeScript
NestJS / React
Angular / Next.js

Backend

Java / Spring Boot
Kotlin / Go / Python
PHP / Laravel / GraphQL

Mobile

React Native
Flutter / Dart

Data and Cloud

PostgreSQL / MySQL
MongoDB / SQLite / AWS

Engineering

Microservices
Micro Frontends / Single-SPA
CI/CD / Cypress / Sentry
GitHub Actions / CircleCI

EDUCATION

Systems Analysis and Development

UNOPAR | 2013 - 2016

HIGHLIGHTS

OBMEP Gold Medal
AI Development Workshop
Advanced JavaScript
Linux Terminal

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer with 10+ years of experience building scalable, high-performance applications across frontend and backend. Strong background in fintechs and startups, delivering B2C and B2B products, credit platforms, back-office systems, mobile apps, APIs, and distributed architectures. Experienced in cross-functional and international teams, combining product thinking with clean architecture, quality, performance, automated testing, mentoring, and continuous improvement. Proven record optimizing critical systems, including reducing a data-processing workflow from 15 hours to 5 minutes.

PROFESSIONAL EXPERIENCE

Altis

Sep 2024 - Feb 2026

Senior Software Engineer

- Architected core systems for vehicle financing, BNPL, FGTS advance payments, and personal loans using React, NestJS, and Kotlin.
- Built AI-powered tools and Go crawlers, reducing data processing time from 15 hours to 5 minutes.
- Integrated partner company APIs to expand platform capabilities.
- Delivered scalable solutions for credit operations, business rules, and back-office workflows.

React, NestJS, Kotlin, Go, TypeScript

Motivus / F1RST Santander

Nov 2022 - Oct 2024

Software Engineer

- Developed a strategic ServiceNow-integrated platform for incidents, tickets, alerts, and problems across Santander internal teams.
- Contributed to a large-scale operational management solution used across Santander Brazil, with global expansion initiatives.
- Supported monolith-to-microservices modernization, improving scalability, maintainability, and alignment with banking standards.

Angular, Java, Spring Boot, ServiceNow, MongoDB, PostgreSQL

Creditas

Jul 2019 - Aug 2022

Software Engineer

- Built React and Angular micro frontends with Single-SPA, GraphQL BFFs, and migrated PHP monoliths to Kotlin microservices.
- Developed React Native and Kotlin/Spring Boot mini apps using Server-Driven UI for web and mobile platforms.
- Implemented ACL, feature flags, unit and Cypress E2E tests, CI/CD pipelines, AWS infrastructure, and Sentry monitoring.
- Contributed to Design Systems, internal tooling, onboarding, hiring processes, and junior engineer mentoring.
- Delivered Auto, Home Equity, and Payroll Lending products with distributed teams across Brazil, Mexico, Argentina, and Spain.

React, Angular, Kotlin, GraphQL, React Native, AWS

Creditoo (acquired by Creditas)

Jul 2018 - Jul 2019

Software Engineer Analyst

- One of the startup's first engineers and the main frontend reference for MVP development and evolution.
- Supported growth from 7 employees through the Creditas acquisition, improving platform scalability and customer reach.
- Built Angular, PHP, Laravel, and MySQL solutions and supported hiring new engineers and designers.

Angular, TypeScript, PHP, Laravel, MySQL
